INSTRUCTIONS, NOTICES TO OFFERORS

1. The Department of the Navy is conducting an OMB Circular A-76 cost comparison study for Base Operations Support Services for the Naval Air Station, Lemoore, California. The cost comparison study will examine the possibility of converting government “in-house” operations to contractor operations.

As a result of this solicitation, a best value offeror will be selected and compared to the government’s “in-house” proposal. A contract will result only if it is determined that the contractor performance is more economical in accordance with the requirements of OMB Circular A-76 and its supplements. Following the announcement of the tentative decision as a result of the cost comparison, the A-76 Administrative Appeals process will begin. Any appeals must be submitted within 30 calendar days and the final decision will be made within 30 days of receipt of the appeal.

NOTE: This is an outcome based specification. Only the minimum requirements, whether driven by mission criticality, excessive risk, statute or life safety, are provided in the solicitation, along with broadly generalized results/end states or “outcomes”. Offerors are to propose a total package of services to meet the government’s outcomes, as well as propose the methodology that they will use to achieve the outcomes. Offerors are invited to propose innovative methodologies, based on industry’s best practices and experience.
